

Thank you for purchasing Quinn's Castile Soap. We hope that you love this natural and versatile soap as much as we do. Quinn's Castile Soap contains certified organic argan, jojoba and hemp oils. The ingredients are fragrance-free and biodegradable - good for you and for the environment.

Plus, our formula is gentle enough for babies, pets and sensitive skin.

Quinn's Castile Soap is concentrated, so please dilute before using on skin, hair or fur. We encourage you to create your own signature soaps by adding your favorite essential oils.

SO MANY USES!

One soap, a variety of purposes - from head-to-toe body care, household cleaning, laundry and even pet care. Here are our favorite recipes to get you started.

Body Wash/Hand Soap

Mix 1/2 cup castile soap with 1/2 cup distilled water. Try adding 10 - 15 drops of your favorite essential oil or coconut oil for a little extra luxury and hydration.

Shampoo

Wet hair. Mix 2 tbsp. castile soap with 1 cup distilled water. Lather on hair from scalp to ends. Rinse thoroughly. Follow with an acidic rinse to balance the pH of your hair - 1 part lemon juice or apple cider vinegar to 8 parts water. Keep away from eyes.

Facial Cleanser

For fresh invigorated skin, mix 1 tbsp. castile soap, 1 cup distilled water and 1/2 cup witch hazel. Supercharge your wash by adding 5 drops of tea tree essential oil. Keep away from eyes.

Gentle Baby Wash

Mild and safe for delicate baby skin. Mix 1 part castile soap with 4 parts distilled water. We do not recommend adding essential oils to this recipe as they may cause irritation. Keep away from eyes as soap is not 'tear-free'.

Unisex Shaving Lather

Add a few drops of castile soap to wet hands, rub into a lather and apply to face, legs or body before shaving.

Pet Shampoo

Mix 1 part castile soap with 4 parts distilled water. Massage gently into fur. Avoid contact with eyes, nose and mouth. Rinse thoroughly with water. We do not recommend adding essential oils to this recipe - they may be toxic to your pet (especially to cats).

Multi-Purpose Cleaning Spray

The non-toxic way to clean household surfaces and floors. Mix 1/4 cup castile soap with 4 cups warm water. Add mixture to a spray bottle.

Dish Soap (Hand Wash)

For that extra sparkling finish, mix 1 part castile soap to 2 parts warm water, then hand wash dishes.

Fruit and Vegetable Rinse

To remove residue from your fresh produce, mix 1 tbsp. castile soap and 2 cups of water. Rinse thoroughly.

Laundry Detergent

Better for you, your clothes and the environment! Add 1/3 cup castile soap to a large load.

Once the rinse cycle begins, add 1/2 cup vinegar.

Car Cleaner

Use castile soap as an eco-friendly carpet cleaner. Mix 1 part castile soap into 4 parts water. Mix until foamy.

Rub onto stains, then rinse with water.

Carpet Cleaner

Use castile soap as an eco-friendly carpet cleaner. Mix 1 part castile soap into 4 parts water. Mix until foamy. Rub onto stains, then rinse with water.

Reusable Wipes

Make your own wipes by cutting up an old t-shirt and soaking strips in 2 tbsp. castile soap and 1 cup of water. Add your favorite essential oil for anti-bacterial or aromatic purposes.

Makeup Brush Cleaner

Add a few drops of castile soap to 1 cup of warm water. Wash brush bristles, keeping metal part of handle out of mixture and away from water. Rinse thoroughly. Ensure brush is dry before reusing.

Weed Killer

To keep weeds at bay, add 2 tbsp. castile soap and 2-3 tbsp. of salt to 2 cups water. Spray on weeds in the morning and afternoon. Do not spray mixture on plants and keep away from pets.

*Soap is concentrated, so remember to dilute with water before using. Never apply directly onto skin, hair or fur.

Recipe quantities are suggested amounts only. Start with a weaker solution, then experiment with different dilutions until you find the right dilution for you.

For external use only. Avoid contact with eyes and other mucus membranes. Do not use on broken skin.

Do not ingest. If swallowed seek medical assistance. If irritation or sensitivity occurs, discontinue use.

Keep out of reach of children.
